Electrolux Prostore

650 liter digital refrigerators

The Electrolux Prostore range is produced for the customer who needs refrigeration products suitable for gastronorm containers. The product range is comprised of 600 liter models with full, half door in AISI 304 or stainless steel. All the internal finishes are in stainless steel. The Prostore detailed on this sheet are refrigerators with remote or built in refrigeration unit. Model PR06R1FBR is prearranged for brine system.

691217

MATERIALS
• Internal and external in stainless steel AISI 304 (galvanized back and exterior).
• Runners and supports in stainless steel easily disassembled (without any tool) for more convenient cleaning.

EASY TO INSTALL
• All models require only 1 phase 220/240V supply. They can therefore be plugged straight into an existing power socket.

EASY TO USE
• Automatic evaporation of the defrosting water by hot gas on the top.
• Designed to operate at ambient temperatures up to +43 °C.
• Hidden evaporator thus guaranteeing higher storage capacity and less corrosion problems.
• Simple control panel: on/off switch, digital thermometer with increasing and reduction button, high/low humidity switch, control lamps and light switch.
• Self closing and reversible left/right doors (not for glass door).
• Door microswitch to stop the fan once the door is opened.
• Light as standard in all models.
• Easy access to the main components for an easy maintenance.

EASY TO MAINTAIN
• Insulation thickness:60 mm to ensure effective insulation with minimum energy consumption.
• Door handle entirely in pressed stainless steel (without plastic) without joints gathering dust and dirt.
• Inner cell with rounded corners, bottom pressed in only one piece.
• Joints between side and bottom inner panels less than 0.5 mm (according to hygienic rules) in order to avoid the deposit of dirty residual that are origin of bacterial proliferation.
• Standard equipped with outlet drain 1/2" (only on refrigerators).

EASY ON THE ENVIRONMENT
• CFC and HCFC free environmentally friendly: R134a gas in refrigeration circuit. Gas in foam: Cyclopentane.
• Low noise level - less than 57 dB (A).
• All models comply with the standards required by the main international approval bodies and are H marked.
